Allen, A. Lester	131	Medak, Herman	29
Ball, Ernest	91	Meredith, Howard V.	215
Binz, Sue	401	Miller, Theodore R.	1
Bookhardt, John F.	203	Mosimann, James E.	339
Brehme, A. C.	325	Mulkay, Lewis M.	131
Clark, R. T.	47	Nakabayashi, Kozo	1
Conawat, C. H.	83	Nelsen, Olin E.	361
Crary, D. D.	111	Pace, Donald M.	203, 355
Edwards, Leslie E.	325	Prahlad, K. V.	83
Eichhorn, H. L.	385	Ragan, Nancy	401
Eleftheriou, Basil E.	179	Renninger, George	1
Enomoto, Kingo	1	Ritchie, Don	391
Fujisawa, Michiaki	1	Saelhof, Clarence C.	1
Graff, Nancy	209	Sawin, Paul B.	59, 111
Hayerland, L. H.	47	Schjeide, Ole A.	401
Hellwig, C. Alexander	169	Shelby, C. E.	47
Hicks, Kenyon	193	Snethen, Richard	193
Jolicoeur, Pierre	339	Sokoloff, Boris	1
Kidwell, J. F.	47	Thommes, Robert C.	69
King, John A.	179	Trauner, Walter	1
King, Robert C.	265, 333	Vanoucek, E. G.	333
Latimer, Homer B.	59	Weeth, H. J.	47
Layon, Michael E.	355	Weinmann, Joseph P.	29
Mayer, Julia	29	Wilkinson, Paul N.	169
McConnell, Benjamin	1	Zirkle, Conway	81

Subject Index

Acidic lipids in *Drosophila* ovary . . . 309
Acleiencephalic region of chick brain . . . 363
  histogenesis of . . . 370
    effect of hypoxia on . . . 370
    effect of operative procedures on . . . 370
Alar-plate tissue of chick embryo brain . . . 361
    effect of hypoxia on . . . 361
Alpha yolk spheres in *Drosophila* oocyte . . . 290
American-born white girls, indices of head and face measurements . . . 216, 217
Amino acids, effect on growth of plant tissue *in vitro* . . . 93
Analytical methods for measurement of rat organs . . . 49-51
Anaplastic carcinoma in mice, growth in various strains . . . 197-199
Antitumor drugs, toxicity of . . . 23
Aspergillus ustus, growth of hyphae . . . 392-393
Beta granulation in islet tissue of pancreas . . . 71
Beta yolk spheres in *Drosophila* oocyte . . . 294
Bivariate analysis of size in turtle . . . 341
Bivariate scatter diagram of carapace measurement . . . 343
Body proportions in *Peromyscus* . . . 189, 190
Body weight of deermice . . . 182
Bone marrow transplantation . . . 2,4
Book Reviews . . . 81, 325
Brain weight in deermice . . . 182, 183
Carapace dimensions of Painted Turtle . . . 341
Carbohydrates in *Drosophila* oocytes, cytochemical methods for . . . 269
Cell proliferation, mechanism of action of hemoglobin on . . . 208
Cellular layer, thickness in oral epithelium . . . 32
Central nervous system, effect of radiation on development . . . 142

Cellular layer, thickness in oral epithelium . . . 32
Central nervous system, effect of radiation on development . . . 142

	Page
Cephalic index in children	219
individual contrasts	221
trend for total sample	221
trends for individuals	220
sub-group contrasts	222
Chick pancreas, development of endocrine portion	70
Chick pancreas, histochemical studies of	69
Chorion, cytochemistry and ultrastructure of	303-308
Chrom-alum-hematoxylin for demonstration of beta granules	71
Chromatophores, effect of radiation on development	158
Chronic thyroiditis, experimental production of	169
Chrysemys picta marginata, size variation in	339
Closing phase of growth-reproduction cycle	386
Coconut milk-gibberellin medium for growth of plant tissues	106
Coefficients of variation in measurements of rabbit heart	63
Congo Red for staining RES	18, 19
Congo-Red-Mitomycin C, effect on Murphy-Sturm lymphosarcoma	20
Culture medium for plant tissues	92
Curvularia sp., vegetative mycelium of	392, 393
Cysteamine, effect on toxicity of Mitomycin C	21
Cysteine, effect on toxicity of Mitomycin C	21
Cytochemistry of developing oocytes of fruit fly	265
Cytotoxicity of Mitomycin C	1-22
Deermice, differential skull growth in	179
Distribution of mitoses in palatal tissue	32
Dividing cells, distribution in oral epithelium	29
Dog hearts, comparison of weights with those of rabbit hearts	64
Drosophila melanogaster	265-324, 333-338
follicle cells of	283-288, 290, 333
mutants, sterile	337
oocyte	290
Alpha yolk spheres in	290
Beta yolk spheres in	290
carbohydrates in	294
oogenesis in	265
ovary, enzyme extraction of	271
Ear-lateral line complex, effect of radiation on	151, 152
Embryo liver, chick	401
Enzyme extraction of *Drosophila* ovary	271
Epithelial mitoses, Poisson's distribution of	33
Epithelium, thickness of	42-43
relation to growth rate	42
Eye, effect of radiation on development of	139, 140
Facial measurements in children	235-237
variability statistics for	230-234
growth curves for	227, 231, 235
Facio-cephalic form, percentile rank for eleven indices	258
Facio-cephalic indices in human ontogeny	215
Fish embryos, normal development of	132, 134, 135
Follicle cell behavior in sterile *Drosophila* mutants	337
Follicle cells, cytochemistry and ultrastructure of	283-288, 290
Follicle cells, surface migration of	338
Food capacity and growth-reproduction cycle	388
Freund adjuvant in experimental thyroiditis	171
Genetic differences in growth rate and maturation of rabbits	111
Genetic stocks of mice used in tumor transplantation	195, 196
Genetic-environmental interaction in variability of organ measurement	53, 58
Germ cells, development after radiation	143-145
Gibberellins, effect on growth of plant tissue	97

	Page
Growth	
of alar plate tissue in chick embryo	361
of chick embryo pancreas	69
of fungus colonies	391
of HeLa cells	355
effect of cell density on	355, 358
of long bones of mice	209
of *Lupinus albus* in tissue culture	91
of oral epithelium	40
of Paradise fish embryos	131
of plant tissue	96
effect of derivatives of nucleic acid on	97
effect of gibberellins on	97
effect of growth regulators on	96
effect of vitamins on	96
of rabbit heart, postnatal	59
of rat	328-333
of skull in deermice	179
of Strain L cells in tissue culture	205
effect of hemoglobin on	204-206
of transplantable mouse tumor	196
of young rats as index of exocrine-pancreatice function	325
Growth, open system of	107
Growth curves	
for facial and head measurements in children	219-255
for mammals	125
for *Peromyscus*	184-189
Growth gradient in deermouse bones	180
Growth index in pancreatic-deficient rats	327
Growth indices for long bones of two strains of mice	213
Growth pattern in rabbits	127
Growth regulators	96
Growth-reproduction cycle	385
Gut development, effect of radiation on	147-149
Head and facial growth in childhood	215
Heart, effect of radiation on development	149-151
HeLa cells, method of culturing	355
Hematopoietic organs, effect of radiation on	137, 138
Hematoporphyrin	14
effect on Murphy-Sturm lymphosarcoma	17
Hemoglobin, effect on tissue cells *in vitro*	203
Hemorrhage due to Mitomycin C	1
Histochemical demonstration of	
acid mycopolysaccharides	268
Carbohydrates	269
lipid	270
nucleic acid	268
oocyte proteins	267
Histochemical studies of insulin in chick embryo pancreas	69
Hypoxia,	
effect on chick development	361
effect on emerging dorsal axial system	379
Inflammatory reaction due to Mitomycin C	6-10
Initial synthesis of insulin in developing chick	79
Insulin	
histochemical demonstration of	71
time of appearance in chick pancreas	79
Irradiation, effects on specific organs and systems	135
Leucopenia due to Mitomycin C	1
Lipids in *Drosophila* oocytes, cytochemical methods for	270

Page

Lipoglycoprotein in chick liver . . . 410
Lipogranulomatous inflammation caused by Pantopaque . . . 172
Logarithmic curve of follicle cell number and volume in developing egg chamber . 335
Logarithms of measurements of rat organs . . . 55-57
Long bones of mice, early growth of . . . 209
Longitudinal analysis of body weight in rabbits . . . 129
Lupinus albus, sterile culture of . . . 91
Mean skull dimensions in deermice . . . 182
Mitochondria of *Drosophila* oocytes . . . 296
Mitomycin C . . . 1
  accumulation in tissues . . . 1
  cytotoxicity of . . . 1
  protective measures against . . . 2
Mitotic activity in oral epithelium . . . 29
Mitotic frequencies . . . 40
Mitotic indices . . . 35
Mitotic rate . . . 29, 35
  comparison in single animal . . . 36
  control of . . . 29
  range of . . . 41
Mitoses
  in oral epithelium . . . 33-34
  in palatal region . . . 32
Morphogenetic studies of the rabbit . . . 59
Mouse liver cells *in vitro* . . . 206
  effect of hemoglobin on . . . 207
Mouse tumor, transplantable . . . 193
Mucopolysaccharides, cytochemical methods for . . . 268
Murphy-Sturm lymphosarcoma . . . 17, 20
Muscles, effect of radiation on development of . . . 145, 146
Necrosin . . . 21
Neural tube sensitivity to O_2 deprivation . . . 378
Neutropenia due to Mitomycin C . . . 1
Notochord, effect of radiation on development of . . . 155-157
Nuclear density in follicular epithelium . . . 386
Nucleic acid derivatives, effect on growth of tissue . . . 97
Nucleic acids in *Drosophila* oocytes, cytochemical methods for . . . 268
Nucleoproteins of *Drosophila* egg . . . 308
Nucleus of *Drosophila oocytes* . . . 297
Nurse cell cytoplasm, electron micrographs of . . . 281
Nurse cell nuclei . . . 273
Nurse cells of *Drosophila*, cytochemistry of . . . 276
Nutrition of the albino rat . . . 47
  effect of plane on . . . 47
  effect of selection on . . . 47
O_2 treatment of chick embryos, methods for . . . 364-366
Olfactory organs, effect of radiation on development of . . . 155
Oocyte during vitellogenesis . . . 200
Oogensis in *Drosophila melanogaster* . . . 272, 333
  cytochemistry and ultrastructure of . . . 265
Ooplasmic carbohydrates in *Drosophila* . . . 312
Ooplasmic lipids in *Drosophila* . . . 312
Oral epithelium
  mitotic activity in . . . 29
  mitotic rate in four regions . . . 39
  rates of growth in . . . 29
Palatal mucosa, mitotic rate in . . . 31

Page

Pancreas,
role in growth maintenance . . . 328
staining of . . . 72-77
Pancreatic function in young rats . . . 325
Pancreatic-deficient rats, food intake of . . . 328
Pantopaque in production of experimental thyroiditis . . . 174
Paradise fish, effects of X-rays on . . . 131-133
Paraldehyde-fuchsin for staining pancreas . . . 70
Peromyscus . . . 179-192
specific growth rates of . . . 184, 189
Peromyscus maniculatus, allometric growth patterns of skull . . . 191
Phenotypic variability in rats . . . 51
Phoma sp., spiraling lines of pycnidia . . . 392, 393
Phosphoprotein in chick liver . . . 410
Postnatal growth of rabbit heart . . . 59
Primiparous rats . . . 84
Principal component analysis of size and shape in turtle . . . 339
Pronephros, effect of radiation on development of . . . 153, 154
Proteins in insect oocytes . . . 267
Pseudoencephaly . . . 363
in chick embryo . . . 372-375
Pseudo-pregnant rats . . . 83
Rabbit, morphogenetic studies of . . . 59
Rabbit growth
analysis of sex deviation in . . . 116
comparison of normal and dwarf races . . . 123, 124
mean velocity of . . . 118, 119
percentage distribution of maturity types . . . 117
Rabbit heart, comparison of weights in different races . . . 64
Rabbit weight, comparison of normal versus heterozygous dwarfs . . . 120, 121
Rabbits, genetic differences in growth rates . . . 111
Rabbits, mean weights of . . . 115
Radiation effect on developing tissues . . . 138-158
blood forming organs . . . 138
central nervous system . . . 141-143
eye . . . 139-141
germ cells . . . 143-145
gut, including periblast and pharynx . . . 147-149
muscles . . . 145-147
notochord . . . 155, 157
olfactory organs . . . 155, 156
pigment cells . . . 158
pronephros . . . 153, 154
Rat, measurement of organs at different nutritional levels . . . 50
Rat organ weight, statistical analysis of . . . 52
Rat, standard diet . . . 48
Rat tumors, treatment with Mitomycin C . . . 15, 20, 21
Rats, uterine weight in . . . 83
Reticulo-endothelial system . . . 11
activation of . . . 11
blockage of . . . 11
Reticulo-endothelial system, effect of blocking on leucopenia . . . 13
RNA synthesis in *Drosophila* oocytes . . . 314
Roughage . . . 48
Saccharate-iron-oxide, effect on Mitomycin toxicity . . . 14
Sequestrine for decalcification . . . 30
Serum calcium in chick liver . . . 403
Serum lipids, chick liver . . . 404, 405
Serum protein synthesis . . . 401
estrogen-induced . . . 401

Page

in chick embryos 401
in liver 401
Serum protein, ultracentrifuge patterns of 403, 407, 408
SH-amino acids as protective factor 19
Shoot apex, culture of 91
Shoot apex, effect of inadequate culture medium 107
Skull bones and brain-body weights of *Peromyscus* 191
Skull growth in deermice 179
Somatic form in childhood 215
Specific growth curves in deermice 181
Spiral growth
effect of extrinsic factors on 399
inheritance of 399
of fungus 391-396
of individual hyphae 397
Spleen extract and Mitomycin C therapy 4, 5
Splenectomy 4
Stains for *Drosophila* oocytes 267
Sterile culture of shoot apex of *Lupinus* 91
Strain L cells, effect of hemoglobin on 204
Strong A mice 30, 213
Strong polydactylous mice 213
Synthesis of liver protein 401
The Genus Datura (Book Review) 81
Thyroglobulin 175
Thyroid tissue in the production of experimental thyroiditis 171
Thyroiditis, demonstration of 172, 173
Tissue cultures, effect of hemoglobin on 203
Transplantability of a mouse carcinoma in male and female mice 200
Transplantable tumor, specificity of 193
Trivariate scatter diagram of carapace measurements 344, 345, 349
Turtle, size and shape variation in 339
Ultrastructure of developing oocytes 265
Uteri, measurement during different stages of estrous cycle 83
Uterine horns,
length of 84, 87
weights of 84, 89
Uterine weights and lengths in virgin and postpartum rats 83
Variability statistics for head and face measurements in children . . . 218-254
Variance of susceptibility of different sublines to tumor transplantation . . . 201
Variation in carapace shape 350, 351
Variation of size and shape in the Painted Turtle 339
Ventricular walls,
thickness of 62, 67
weights of 60-63
Vitamins, effect on growth of plant tissue 96
Vitelline membrane, cytochemistry and ultrastructure of 301
White Leghon chicks 70, 364
Wistar albino rats 83
X-ray, effects on fish embryos 131
